Software Quality Assurance with internship and freelance experience in manual testing, regression testing, and automation testing using Selenium and Pytest. Experienced in designing test cases, reporting defects, and validating application workflows. Strong technical background in programming enables effective collaboration with development teams..

EDUCATION

Ahmad Dahlan University

September 2020 – September 2024

- Bachelor of Informatics Engineering | GPA: 3.82

WORK EXPERIENCE

PT. Talenta Sinergi Group (Eduwork)

October 2023 – January 2024

Software Quality Assurance (Intern)

- Documented test results, defect findings, and testing scenarios to support clearer issue tracking and resolution.
- Created 50+ manual test cases reducing overlooked defects during regression testing.
- Improved regression testing efficiency by creating Selenium IDE test cases.
- Collaborated with developers to validate features and requirements.

QA Freelancer - Tester Work

July 2025 – September 2025

Software Quality Assurance (Freelance)

- Performed manual functional testing of the Instagram Basic Mode feature under specific Telkomsel data limitations.
- Executed general cash out/withdrawal testing scenarios on the Decaf App to validate core financial workflows.
- Conducted end-to-end Cash In – Cash Out flow testing to ensure transaction accuracy, stability, and user experience consistency.

PROJECT EXPERIENCE

Beshoes Laundry System

April 2023 – August 2023

Front End Developer (Freelance)

- Developed full-stack laundry management system using PHP, MySQL, HTML, CSS, and JS.
- Translated UI/UX designs into responsive, interactive web interfaces.
- Managed version control with Git and documented test cases in detail.
- Automated key front-end flows using Selenium IDE.

HiSocial Digital Solution

October 2023 – January 2024

Software Quality Assurance (Intern)

- Designed and executed comprehensive manual test cases ensuring full feature coverage.
- Performed functional, responsiveness, and browser compatibility testing.
- Developed automated tests (Pytest + Selenium) for critical workflows.
- Reported defects and maintained test scripts using Git for version control.

CERTIFICATIONS / TRAINING

Software Quality Assurance

MySkill | 2026 | Credential ID: MS-20260709-LFwrK0rwCRGTLSiBVVwm | [Credential](#)

SKILLS

Hard Skill:

- **Core Skills:** Manual Testing, Automation Testing, (Pytest, Selenium), API Testing (Postman), Bug Reporting, Regression Testing.
- **Supporting:** Python, Git, SQL
- **Familiar:** HTML5, CSS3, Tailwind CSS, JavaScript, PHP, Laravel.
- **Tools:** Jira, Trello, Qase.io, Postman, CI/CD.

Soft Skill:

- Problem Solving
- Teamwork & Collaboration
- Data Analysis
- Discipline & Responsibility
- Leadership
